INTRODUCTION

1. 1WW Special Study 105-55, Occurrence of Typhoons/Tropical Storms (1949-1969) at Selected Locations (updated through 1977 for six Pacific bases), presents the number of typhoons and tropical storms passing within 60, 120, and 240 nautical miles of selected locations in Asia and the Western Pacific. The occurrences for Clark AB PI, Kadena AB JA, Yokota AB JA, Kunsan AB ROK, Osan AB ROK, and Andersen AFB GU, have been updated to include the years 1970-1977 (See pg ii). The occurrences for the years 1949-1969 for these six bases are in the by country section to facilitate comparisons with other locations for the same time period.

2. Note that the occurrences are just that and not an average number of storms. Also, the information in this publication should not be used in any way as a weather forecast.

3. This study was originally prepared by the Environmental Services (IVC), Aerospace Sciences Division, 1st Weather Wing, APO San Francisco 96553 in 1970. Additional copies of the original publication may be obtained from the Defense Documentation Center (AD 706 408).

FOR THE COMMANDER

Phillip D. Wood

20. ABSTRACT *(Continue on reverse side if necessary and identify by block number)*

Both the occurrences of typhoons and the occurrences of typhoons and tropical storms within 60, 120, and 240 nautical miles are presented by month for 106 Western Pacific locations. The occurrences for Clark AB PI, Kadena AB JA, Yokota AB JA, Kunsan AB ROK, Osan AB ROK, and Andersen AFB GU, have been updated to include 1970-1977 data.
